SUMMARY

Experienced Software Engineer with a strong background in full-stack development, cloud infrastructure, and third-party integrations. Passionate about building scalable applications and leading development teams to deliver high-quality software.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript
- **Frontend:** React.js, React Native, Webflow, Nest.js
- **Backend:** NestJS, Express.js, GraphQL, Prisma
- **Databases:** PostgreSQL, MongoDB
- **Cloud & DevOps:** AWS (S3, SNS, Lambda, EC2), Google Cloud
- **Other:** CI/CD, API Integrations, Webflow Development

WORK EXPERIENCE

Software Engineer – [Intrix Digital (Pvt) Ltd] (07/24 – Present)

- Technical education content preparation.
- Kinto warranty management system - admin portal(ReactJs)
- SEO web content preparation

Software Engineer – [Nimi Tech] (03/22 – Present)

- Worked and guided development of multiple web and mobile applications using **PERN stack & React Native**.
- Integrated **third-party APIs & SDKs** (Auth0, Highnote, OAuth, Mercoa SDK).
- Worked closely with clients and DevOps teams to set up **AWS cloud infrastructure**.
- Improved system performance and security through best coding practices and **CI/CD pipelines**.
- Led teams for **Webflow projects**, develop website sites to match client needs.
- Collaborated with clients and internal teams on task breakdowns, time estimation, and requirement clarifications.
- Proactively resolved blockers and facilitated smooth project progression by providing clear communication and technical guidance.

Project Experience

1. NimiKash (Payroll Management Platform – Web & Mobile App)

- Built a **PERN stack** platform automating **payroll for global contractors**.
- Developed an **HR management dashboard** and a **KYC-enabled mobile app**.

2. Mercoa (Vendor & Invoice Processing Web App – Frontend Only)

- Developed frontend using **React**, integrating **Mercoa SDK & REST APIs**.

- Built **approval workflows** and **vendor management interfaces**.

3. Natoma Secure (Non-Human Identity Security Platform – Web App)

- Developed **third-party integrations** for securing **API keys, secrets, & machine identities**.
- Worked with **GraphQL, Node.js, React, and Google Cloud**.

4. HLTHCard (Prescription Payment Plan – Web App)

- Developed **onboarding & authentication** for the platform.
- Project was **discontinued before full implementation**.

5. GolfCard (Financial Web App – Ongoing Project)

- Handling **authentication, onboarding, and AWS infrastructure setup**.
- Integrated **Plaid, Zendesk, Highnote SDK, & Amazon SES** for transactions & card management.

EDUCATION

🎓 [BSc (Hons) in Information Technology Specializing in Software Engineering] – [SLIIT], [19-23]
